THE ARKANSAS CADUCEUS CLUB

An organization of College of Medicine graduates, present and former house officers, faculty, nongraduate Arkansas physicians, and other friends of the College exists to support the College of Medicine. But that's not all we do . . . Every June we meet . . .

. . . and eat . . .

. . . continue education . . .

. . . hold reunions . . .

. . . and pay special tribute . . .

THE SYSTEM

"DEDICATED TO A SECOND CENTURY OF ACHIEVEMENT"

The University of Arkansas Medical Sciences Campus was dedicated to a 'Second Century of Achievement' on Saturday, June 9th, at ceremonies in Ed I auditorium by Chancellor Harry P. Ward.

In Chancellor Ward's speech he stated, "We accept our responsibility to the state and the nation in training and placing the needed number and kinds of health professionals. We will make every effort to assist communities of Arkansas in planning and developing appropriate health programs for the special needs of our state. Our state has provided the soil, our history has served as the seed and plant of our foundation; may the second century serve as our flower."

UAMSC has been involved in the training of health professionals since 1879, it is located on 26 acres in west Little Rock and serves as the center of medical education in the state of Arkansas, containing the Colleges of Medicine, Pharmacy, Nursing, Health Related Professions and the Graduate School.

ASSOCIATE DIRECTOR

JOHN C. BANGERT
ASSOCIATE DIRECTOR

INTRODUCTION: An Area Health Education Center (AHEC) program for the State of Arkansas was originally proposed in January, 1973, by the Governor's Committee on Primary Health Care as one of six major components of a State Plan for Primary Health Care. The proposed AHEC plan was subsequently adopted, authorized and funded by the State Legislature in February, 1973. The program was assigned administratively to the University of Arkansas for Medical Sciences and the responsibility for the program was delegated specifically to the Chancellor, University of Arkansas for Medical Sciences.

As originally conceived, the AHEC Program was to focus principally on the state's primary health care needs, particularly in the medically underserved areas. The program was to include efforts to retain more of the graduates of the state's College of Medicine for practice in Arkansas; the training of more primary care physicians, particularly family practitioners, for the state; and to improve the goegraphic distribution of these physicians over the state. The program was also to address the needs of the medically underserved areas of the state for other healthcare professionals and disciplines, including nurses, clinical nurse practitioners, physician's assistants, and other personnel needed for improved primary health care.

RESOURCES: **AHEC Centers -** The AHEC Program has established six education centers throughout Arkansas. These are located in El Dorado, Fayetteville/Springdale, Fort Smith, Jonesboro, Pine Bluff and Texarkana. **Faculty -** Each AHEC has a full-time physician director, who is responsible for all programs within his specific area. Those AHECs that have a Family Practice Residency Program also have a full-time residency program director and assistant director. A full complement of community physician-teachers, representative of the various medical specialties and subspecialties, participate in the teaching and training programs of each AHEC. **Community Hospitals -** Each AHEC program is designed to make the most effective use possible of the teaching and training resources of its community hospitals. **Library System -** Each AHEC has a medical library of printed and audiovisual material and extends its services to health practitioners and health care institutions of the surrounding geographic area.

PROGRAMS: **Sophomore Preceptorship -** Sponsored by the College of Medicine and administered by AHEC, the sophomore preceptorship is an optional program which offers students an opportunity to work on a one-to-one relationship with a physician-teacher for periods ranging from four to six weeks. The program is designed to introduce these future physicians to the conditions and opportunities for practice in Arkansas communities with a population of less than 20,000. **Senior Medical Student Electives -** The senior year of medical school consists of a wide variety of educational experiences designed to allow students to elect programs which supplement their prior training and are best suited to their career goals. Those electives offered through the AHECs augment the existing University medical education experience by providing students an opportunity to participate in various aspects of private practice medicine as it exists in a community and private hospital setting. **Nursing Student Rotations -** Fifth year nurse practitioner students from the UAMS are provided the opportunity to spend three months of their training at an AHEC. **Family Practice Residencies -** Fully accredited three-year residency training programs in Family Practice were begun at AHEC-Fort Smith and AHEC-Fayetteville/Springdale in July, 1975, and at AHEC-Pine Bluff in July, 1977. AHEC-El Dorado and AHEC-Jonesboro have received accreditation for family practice residency programs and will open in July, 1980. **Other Primary Care Residencies -** Residents from the Departments of Internal Medicine, Pediatrics and other specialties and subspecialties are permitted to spend periods of rotation away from their training base. The AHECs have been the primary sites chosen for these external training rotations. **Continuing Education -** Each Area Health Education Center provides an ideal organizational system for continuing education, and an increasing number of offerings are being provided in each of the six AHECs.

AHEC CENTERS

EL DORADO

Dr. Ellis

Established in November of 1973, the El Dorado AHEC program affords participating students and residents the opportunity to observe and participate in the health sciences as practiced in rural and suburban communities of South Arkansas. Currently, emphasis is being placed on electives for senior medical students and nurse practitioner students, preceptorship programs for junior medical students, and continuing education for physicians and nurses. The facilities of Warner Brown Hospital and Union Memorial Hospital are utilized in the training programs. AHEC-El Dorado has recently received accreditation for a three year Family Practice Residency Program and will begin operation in July, 1980. Jacob P. Ellis, M.D., is the AHEC Director.

FAYETTEVILLE

Dr. Parker

The Northwest Arkansas AHEC at Fayetteville was established in November, 1974, with the appointment of Lee B. Parker, Jr., M.D., as AHEC Director. In February, 1975, James K. Patrick, M.D., was appointed Director of the Family Practice Residency Program which is based in the AHEC at Fayetteville. This program, which began in July, 1975, incorporates the facilities of Washington Regional Medical Center, Fayetteville V.A. Hospital, Fayetteville City Hospital, and Springdale Memorial Hospital. Cumulatively, these hospitals represent a total of 692 beds with an average census of 559, and 82 physicians who serve on the staff. AHEC Fayetteville also operates a satellite clinic at Lincoln, Arkansas. This clinic is staffed by faculty and residents from the Family Practice Residency Program.

FORT SMITH

Dr. Williams

The Fort Smith AHEC, under the Directorship of John R. Williams, M.D., provides senior electives in most of the major medical specialty and sub-specialty areas. The excellence of this experience is due to the quality of the medical community, some 165 in number. Sparks Regional Medical Center, which is currently expanding to 681 beds, and St. Edward Mercy Center, which has recently increased its capacity to 339 beds, demonstrate the progressive nature of the area. The Family Practice Residency Program, under the leadership of Dr. David Busby, is now in its fifth year with 21 residents in training.

JONESBORO

Dr. Cohen

The Jonesboro AHEC, established in December, 1974, and Directed by Robert S. Cohen, M.D., offers elective programs for senior medical students in almost 20 specialty fields. The facilities in Jonesboro include St. Bernards Regional Medical Center, a 240 bed general hospital, and Craighead County Memorial Hospital, which are served by 62 physicians. AHEC Jonesboro has recently received accreditation for a three year Family Practice Residency Program and will begin operation in July, 1980. The trade area of over 300,000 persons also benefits from a mental health center which has both in and out-patient services.

PINE BLUFF

Dr. Miller

AHEC Pine Bluff was established in September, 1973, and since April, 1974, has had successful clinical rotations for UAMSC medical students and internal medicine residents. Donald L. Miller, M.D., is Director, with offices located by Jefferson Hospital. The hospital is a 315 bed facility, with a medical staff of 83 physicians. Medical and audiovisual libraries are located in the AHEC offices and staffed by UAMSC trained librarians. The AHEC-Pine Bluff Family Practice Residency Program, Directed by James A. Lindsey, M.D., first accepted residents in July, 1977, and now has 7 residents in training.

TEXARKANA

Dr. Kittrell

The Area Health Education Center-Southwest was established at Texarkana, Ark., on August 1, 1975, with the appointment of James B. Kittrell, M.D., as Director. The AHEC-Texarkana headquarters is located in facilities provided by St. Michael Hospital, Texarkana, Ark. The facilities of this hospital, as well as those of Wadley Hospital in Texarkana, Texas, are utilized for the AHEC educational program. Over 40 community physicians serve as faculty of the program. Since July of 1976, elective clerkships have been offered to senior medical students at AHEC-Texarkana, with future plans including development of a Family Practice Residency Program.

AHEC FAMILY PRACTICE RESIDENCY PROGRAMS

Fully accredited three-year residency training programs in Family Practice were begun at AHEC-Fort Smith and AHEC-Fayetteville/Springdale in July, 1975, and at AHEC-Pine Bluff in July, 1977. Similar programs have been accredited at AHEC-Jonesboro and AHEC-ElDorado and will begin operation in July, 1980. Each of these training programs has a physician director and other full-time staff, and a full complement of College of Medicine appointed teaching faculty in all the major medical specialties and subspecialties from among the practicing physicians in each of the three AHEC communities.

The overall goal of the residency program is to teach and train future family practitioners, emphasizing continuing care, and focusing on the total patient, his family, and community. Another important goal of the program is to achieve a better distribution of primary care physicians throughout the state, particularly in the less populated areas of Arkansas.

In order to achieve these goals, the residency training programs emphasize instruction in internal medicine, pediatrics, obstetrics-gynecology, surgery, emergency room, behavioral science and psychiatry, with additional experience in a variety of subspecialties. Also, each program has a fully staffed and equipped model Family Practice Center which is the focus of activity for outpatient training during the three year program.

During the present academic year, 1979-80, a total of 40 family practice residents are in training in the AHEC Program.

AHEC FAYETTEVILLE

Associate Director

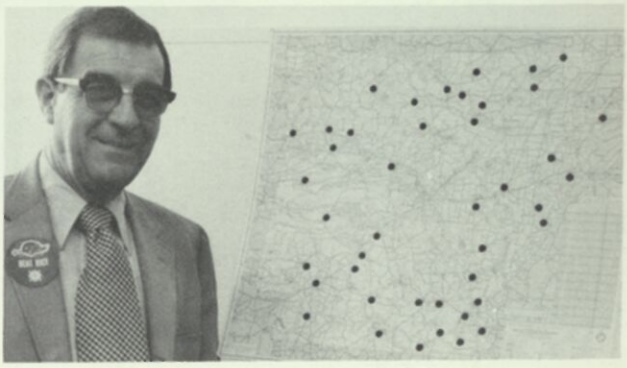
Residents: (Seated, l-r) Bob Clark, Roger House, Roger Tilley. (Standing l-r) Vimla Mehta, Ronald Tanner, Michael Bross, Steven Bonner.

OFFICE OF COMMUNITY MEDICAL AFFAIRS

Mr. Bill North
Director



The Office of Community Medical Affairs was created by Dean Thomas A. Bruce in late 1975. The purpose of the Office is to serve as liaison between the College of Medicine and Arkansas communities; it is particularly interested in providing helpful information to medical students and housestaff who are interested in practicing medicine in Arkansas and in providing assistance to communities that are seeking to recruit physicians.

A project titled, "Consultation and Assistance for Medically Underserved Rural Areas," was funded by HEW, and will be concluded in early 1980. The project was conducted jointly with the Arkansas Department of Health and has been providing technical assistance to rural communities which are medically underserved and are seeking to recruit physicians. Specific assistance was offered in the areas of: 1) organization and use of a Physician Recruitment Committee, 2) assessment of community health manpower needs, 3) sources from which to recruit physicians and 4) methods of recruiting physicians.

Additional activities of the Office of Community Medical Affairs include:

1. Providing individual students and housestaff with, "Community Data Profiles" on any community in Arkansas which the student or housestaff is interested in exploring as a possible practice location site. If requested, arrangements will be made for individuals to make personal visits to any community in which they are interested.
2. "Another Arkansas Practice Opportunity" exhibit. This is a permanent display in the University Hospital which gives pertinent information regarding communities throughout the state that are attempting to recruit physicians. A new community is "featured approximately every three weeks.
3. The "Physicians Opportunity Fair." This is an annual event in which communities who are seeking to recruit physicians are invited to come to the UAMS campus for one day for the purpose of telling students and housestaff about the need in their communities for physicians and to provide specific information about their community.
4. "Arkansas Practice Opportunity Familiarization Program." Better known as, "the bus trips" enables junior and senior medical students, and their spouses, to meet with medical, business, and community leaders; to tour local medical facilities, as well as the town itself; to involve the students and their spouses in working with the communities in their physician recruitment and retention activities. There is no cost or commitment on the part of the student or spouse and the gathering of much information, always accompanied by great food and entertainment!

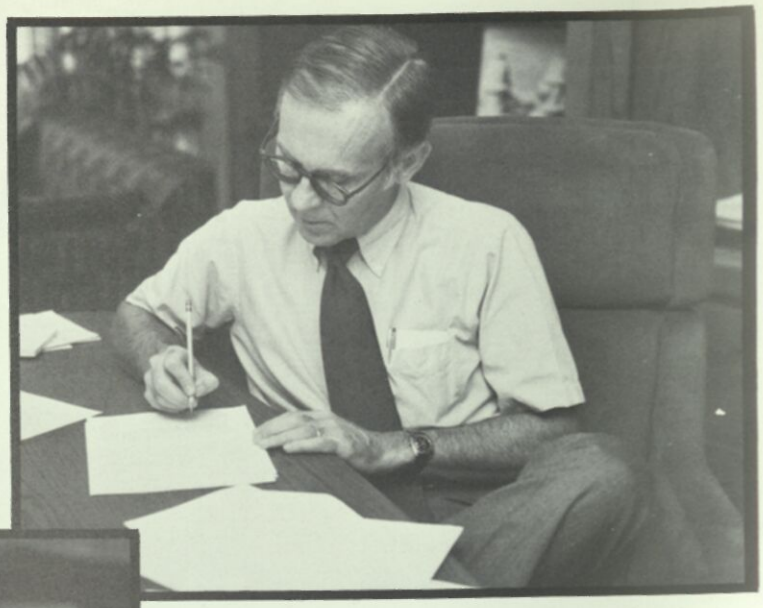
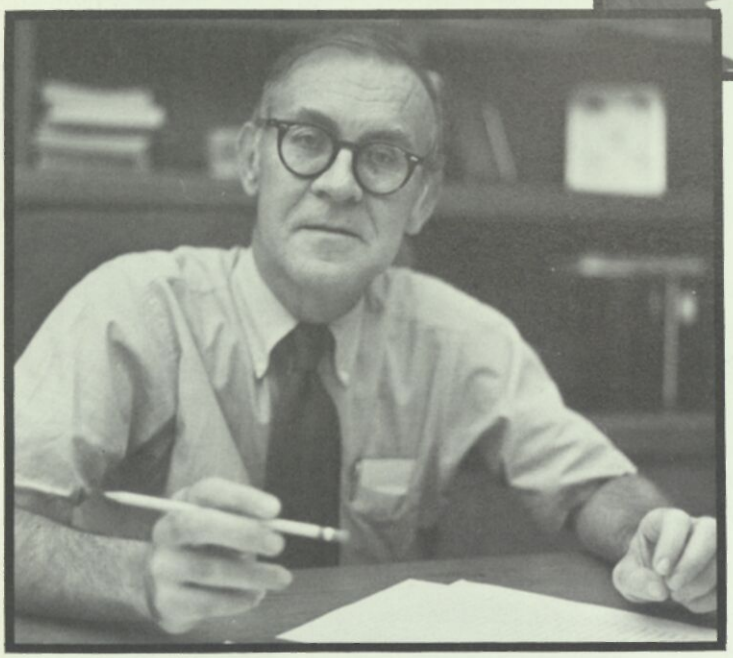
CHANCELLOR OF UNIVERSITY OF ARKANSAS FOR MEDICAL SCIENCES





DR. HARRY P WARD

Dr. Harry P. Ward joined the University of Arkansas Medical Sciences Campus as Chancellor in March of 1979. Dr. Ward, a leading medical educator in Colorado, had served the dual role of dean of the medical school and associate vice-president for health affairs for the University of Colorado Medical Center. He had also served as acting chancellor for one year.

A hematologist, Dr. Ward has stated his interest in promoting opportunities for students from all UAMSC colleges to rotate through the six Arkansas AHEC'S. He has also addressed the issue of containing both educational and medical costs as a necessity.

In an early press conference in February 1979, Dr. Ward stated his philosophy towards UAMSC and the rest of Arkansas. He said, "In the evolution of university centers, we have changed from that of school to a health center. Dr. Dennis started this concept and I pledge to continue this concept - striving for excellence."

Our revels now are ended. These our actors,
As I foretold you, were all spirits and
Are melted into air, into thin air;
And, like the baseless fabric of this vision,
The cloud-capp'd towers, the gorgeous palaces,
The solemn temples, the great globe itself,
Yea, all which it inherit, shall dissolve;
And, Like this insubstantial pageant faded,
Leave not a rack behind. We are such stuff
As dreams are made on, and our little life
Is rounded with a sleep.

The Tempest. Wm. Shakespeare

And finally, we would like to express our gratitude to all the faculty and staff who have given of their time and energy that we might leave these two years with more than we brought with us.

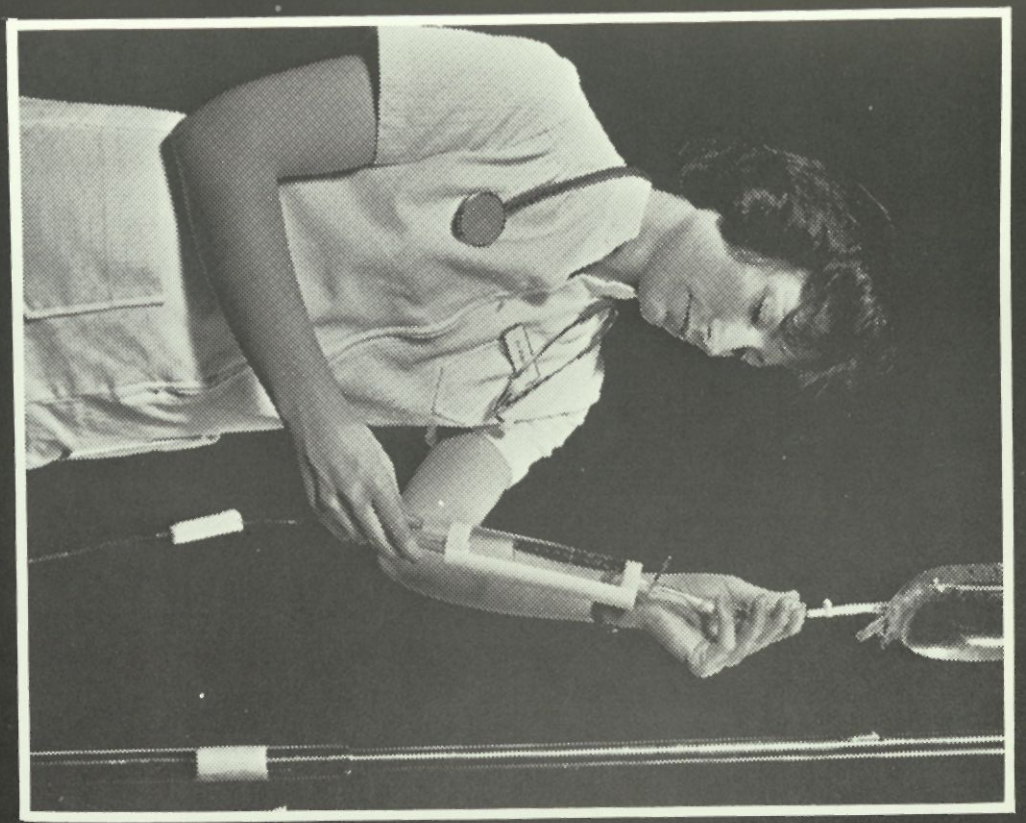
AMEN!

Thank you for sharing
your wit
your wisdom
your inimitable style



NURSING

Dr. Virginia R. Jarratt, a native of Mooringsport, LA, joined the University of Arkansas Medical Sciences Campus January 1, 1980 as dean and professor of the College of Nursing. She previously held the position of dean and professor at Harris College of Nursing, Texas Christian University in Fort Worth.

Dr. Jarratt will succeed Dr. Elois R. Field, who stepped aside August 1, 1978 after serving for fourteen years as dean. Miss Gloria N. Rauch, professor and associate dean for administration, served as interm dean.

Virginia Jarratt was a 1943 diploma graduate of the John Sealy College of Nursing, Galveston Texas. She received her bachlor's degree in nursing for the University of Texas in 1956. In 1959, she completed her master's degree in nursing administration from the University of Minnesota, and later in 1967, she received her doctorate from the University of Texas College of Nursing.

Eligibility Committee

Sigma Theta Tauy is the National Honor Society of Nursing organized to recognize and promote the intellectual component necessary for scholarly nursing. Membership in Sigma Theta Tauy is an honor conferred on students in baccalaureate and graduate programs who have demonstrated excellence in their nursing programs. Sigma Theta Tau is a member of the Association of College Honor Societies and is professional rther than social in its purposes.

The men, women, and businesses names who appear above have contributed to the financing of our 1980 **Caduceus** yearbook. It is through their generosity and support that this book is published each year. With our sincere gratitude, we of the yearbook staff thank you for your patronage and look forward to your continued support.

El Dorado, Arkansas 71730
REGIONAL MEDICAL CENTER FOR SOUTH ARKANSAS

CONSIDER EL DORADO — There is a real need in South Arkansas for additional physicians. Our medical community covers nearly every specialty area. Although Warner Brown Hospital is housed in a new, well-equipped 181 bed facility, we have been serving this community of 26,000 since 1919. We conservatively estimate the population of our drawing area to be 80,000. The number of admissions for FYE June 30, 1977 was 5, 830 and the number of patient days was 44, 810.

CARROLL GENERAL HOSPITAL

BERRYVILLE, ARKANSAS

Population, 2,674 — Carroll County population — 12,301. Helping to serve the Medical-Surgical Needs of Carroll County. A modern 27 bed hospital in a great place to live. — Join our community. Call Tel. 501-423-3355. Rex H. Burton, Adm.

FORREST MEMORIAL HOSPITAL

A fully accredited 112 bed facility, we are located in a progressive community of 13,000 and serve a trade area of 50,000. Nine primary care physicians and one radiologist currently serve on our staff. Excellent X-ray, laboratory, and physical therapy facilities are available. We have weekly consultation visits by physicians representing all specialties who are based in Memphis.

Forrest City offers excellent schools, including a junior college, and is located near superb recreational facilities. We offer ideal conditions for establishment of a general practice. At the present time we are seeking physicians in all areas, especially in OB/Gyn, family practice, internal medicine, surgery, and pediatrics. Come and look us over. YELL COUNTY HOSPITAL & SOUTHERN YELL COUNTY

Congratulates This Years Seniors

&

Offers you an excellent professional opportunity.

Yell County Hospital, located at Danville, is a 57 bed general hospital offering equipment and services unexcelled by any small hospital in Arkansas.

Danville is equal distance from Fort Smith and Little Rock. Fort Smith, being seventy-five miles to the Northwest and Little Rock eighty miles to the East. Sixty miles South lies beautiful Hot Springs.

Four of Arkansas' most beautiful and popular lakes lie within thirty miles of Danville. Majestic Mtn. Magazine, Mtn. Petit Jean and Mtn. Nebo may be seen in the distance, along with many other less well known mountains.

Danville is a serene, but progressive community that offers unique opportunity.

IF YOU ARE SEARCHING FOR THAT SOMETHING "SPECIAL", BE OUR GUEST FOR A DAY AT YELL COUNTY HOSPITAL AND LET US SHOW YOU BOTH OPPORTUNITY & BEAUTY

Steve Coger ... Admn.

POCAHONTAS

RANDOLPH COUNTY MEDICAL CENTER

Population 5,800. Trade Area Population Approximately 25,000.

An opportunity exists is Pocahontas for a general surgeon, internist, and OB/GYN physicians. Office space is available either for solo practice or possible partnership.

Randolph County Medical Center is a new 50 bed, modern, well equipped facility offering a full range of medical and surgical services. It has a well equipped emergency room, obstetrics and intensive care facilities, and ultra-modern surgical suites. A skilled-care nursing facility is also located in the area.

Pocahontas is located 40 miles from Jonesboro, which has a population of 35,000. Many rivers and lakes are easily accessible for recreation.

This growing city of Pocahontas offers many opportunities for a rewarding practice in an ideal semi-rural community.
